## Projects

**TO-DO LIST** | *HTML, CSS, JAVASCRIPT*

**Github**

- An online to-do list to help people upload and save tasks for future completion.
- The system incorporates local storage of the tasks uploaded by the user, which means the tasks would not be erased even if the page is refreshed or closed.
- Key features encompass a user-friendly input function, a simple addition and deletion of tasks.

**Collabor8** | *React, Redux, Bootstrap, CSS ,HTML, Express.js, Node.js, MongoDB*

**Github**

- A collaborative platform facilitating seamless interaction among developers within the organization to enhance project collaboration, issue resolution, and topical discussions.
- Key feature enabling users to form or join teams, empowering team owners to establish channels and manage user access efficiently.
- Facilitated effective communication and coordination among developers by implementing group chat functionalities within project-specific channels, fostering enhanced collaboration and productivity.
